## WINE JELLIES

No artificial colouring or additives: just wine and fruit pectin. This fruit jelly is produced in a homemade style, by rapidly boiling the wine so as to enhance its fragrances and aromas.

### Terrano

Terrano jelly has an intense flavour, full-bodied red wine and an aroma reminiscent of forest fruits. The ideal accompaniment for boiled meats or mature, strong-flavoured cheeses.

### Malvasia

Malvasia jelly has a delicate flavour. Thanks to its fruity scent and freshness, it is the ideal accompaniment for soft and gentle cheeses.

### Molcese

The sweetness of white dried grapes is the predominant note in Molcese jelly, to be served cold with fruit or plain biscuits.
